

Trinitas Christian School
14-point Safety Protocol
for Re-opening Campus
4th Quarter 2019-20

1. Our schedule will be staggered with a goal of maintaining small groups (10) in a classroom and approximately half the student body in the building at once.
2. Common areas, including Grand Hall, playground, lockers, and kitchen will be closed.
3. Classes will have pre-scheduled restroom times (except for emergencies, of course).
4. Some interior doors will be propped open to reduce touching of door handles. Exterior doors will be propped open during arrival and dismissal.
5. Students will remain in one classroom for the duration of the school day to reduce the likelihood of large groups in hallways; teachers will move from class to class to accommodate students.
6. Students and teachers will maintain social distancing guidelines in the classroom to the extent practicable with a goal of achieving groups smaller than ten, students and teachers six feet apart. (Note: We ask students and teachers not to wear masks because the screening process greatly reduces the likelihood of infection within the school.)
7. Parents will be responsible for screening students each day before bringing them to school, addressing the following questions:
 - a. Do you have the common COVID19 symptoms? Shortness of breath, dry cough, fever?
 - b. Have you been exposed to someone who tested positive for COVID19?
 - c. Have you been exposed to someone who exhibited all the symptoms of COVID19 but is awaiting screening, testing, or results of testing?
 - d. Have you had a fever (99.5F) even without the other COVID19 symptoms within the past 24 hours?
 - e. Have you been vomiting or exhibiting other signs of a stomach virus within the past 24 hours?
8. Students will wash hands with soap and hot water each time they go to the restroom.
9. We will check all students', teachers', and staff members' temperatures before they enter the building. Parents who wish to enter the building will also undergo a temperature check. Those who do not pass the temperature check will not be allowed to enter the school.
10. All students will use hand sanitizer upon entering and exiting the classroom.
11. Common surfaces will be disinfected daily by school staff and volunteers according to [CDC guidelines](#).
12. Classrooms will be professionally disinfected at the end of each week.
13. If a student or teacher discovers after having come to school that he or she was previously exposed to someone who tested positive for COVID19, the class will be notified. The classroom will be professionally disinfected. That student or teacher will be asked to stay home.
14. If a student or teacher tests positive for COVID19, school will be dismissed for a definite period of time in accordance with [CDC guidelines](#). Additionally the classroom will be professionally disinfected before being used again according to [CDC guidelines](#).
