# Conversation for Life

*Conversations for Life* is a unique resource equipping adults to restore the lost art of conversation as they *teach* and *talk* through the Bible with youth. The study specifically focuses on the character of God in the context of His unfolding His-story told in the Scriptures. Youth can only love a God they know; and can only know God by spending time in His Word—watching the unfolding of His plans, the fulfillment of His prophecies, and the manifestation of His character.
